

March 1, 2024

I've interacted frequently with Hugo at Replit since I started as the Head of BizOps in November 2021. Hugo has been an active community member and made meaningful contributions to the Replit Community, including tutorials, templates and being active in facilitating members' discussions.

Hugo has also been in contact with multiple Replit employees, providing feedback on beta as well as being proactive in presenting ideas to Replit staff.

Replit community would not be the same without Hugo and I appreciate his product, marketing and community skills. while also proving to have a strong sense of duty for the community and a remarkable work ethic

I strongly recommend Hugo for internships and college applications. I believe he will go far in his career.
