- *Luminus*
- *Python Flask ReplAuth*

As of right now 6th of march 2025 I'm currently developing a Markup Language named Dodo. if you have questions about it or are just curious to know more don't hesitate to send me an email and I will gladly provide more information about it.

Contributions

Open-Source Contributions

I've contributed to some private projects when working as a community moderator at Replit which I can't share. But I've contributed to these public repo's and I'm hopping to able to contribute to many more in the future:

- *nim-lang/website*
- *zed-industries/zed*
